

## **US Army Corps of Engineers®**

### Architect

Did you know the federal workforce is composed of more than 2 million civilian employees?

Are you ready to join the 300+ architects employed by the US Army Corps of Engineers (USACE)?

USACE Louisville seeks Architectural Graduates, Licensed Architects, and Project Architects with 3+ years of experience for multiple job openings in our Design Branch. We have a staff of over 70 master planners, architects, interior designers, mechanical engineers, and electrical engineers in downtown Louisville. We partner with our in-house civil and structural engineers as the Designer of Record (DOR) on a diverse portfolio of projects for the federal government while focusing on sustainable and high-performance buildings for the Army, Air Force, Navy, VA, USDA, etc. Our local team of architects are responsible for leading these multi-discipline design teams in preparing drawings, specifications, and analysis for new, renovated, and adaptive reuse facilities across the country.

### Salary

- \$69,107 - 107,680
- Salary and potential recruitment/relocation incentives are based on qualifications and previous experience
- All USACE employees participate in a performance evaluation program with end-of-cycle monetary awards

### Qualifications

- Open to the public (no military experience or enlistment required)
- U.S. Citizenship is required
- B. Arch or M. Arch degree from an accredited school of architecture, with completion of AXP preferred
- 3 years minimum experience
- Proficient in Autodesk Revit
- Experience applying advanced architectural principles and concepts to evaluate design objectives and client needs
- Experience providing direction to project teams in resolving complex problems and meeting project milestones and deadlines
- Experience in the application of building codes and industry standards
- Strong graphic, organization, and communication skills
- Ability to work independently as well as collaboratively within a multi-disciplinary project team
- Able to handle multiple priorities and projects simultaneously

### Benefits

- USACE offers a comprehensive package of federal employee benefits that is focused on real work-life balance, job security, exciting projects, and unique culture.
